SPECIAL FEATURE OF COLLEGE LIBRARY

INFLIBNET: Information and Library Network is an autonomous Inter-University Networking system under the University Grants Commission of India. It is a major medium of resource sharing among two or more inter connected libraries through exchange of electronic information among themselves. Our institution is delighted to inform that the digitization and networking of the College Library has been undertaken under the INFLIBNET programme of the UGC. The library has its own local network connected with a server with terminals inside the library. In addition, the college provides access to nearly 1,00,000 lac online books and 6,000 electronic journals of previous ten years to its users in the campus under the UGC-INFLIBNET.
